## 2023-2024 School Accountability Report Card

(Published During the 2024-2025 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

<b>Admission Requirements for the University of California (UC)</b>	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <a href="https://admission.universityofcalifornia.edu/">https://admission.universityofcalifornia.edu/</a> .
<b>Admission Requirements for the California State University (CSU)</b>	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <a href="https://www2.calstate.edu/">https://www2.calstate.edu/</a> .

## 2024-25 School Description and Mission Statement

**PRINCIPAL'S MESSAGE**  
The Grizzly Challenge Charter School, in partnership with the California National Guard, at Grizzly Youth Academy is a highly specialized intervention program committed to reclaiming the lives of at-risk youth.

Our school is fully WASC accredited and offers a rich variety of experiences and opportunities designed to develop our students' academic, social, and emotional skills. We believe in a holistic education: We teach students to think critically, make healthy choices, plan for a career, and pursue an action plan for their Post Grizzly lives. Our brief five-month-long academy is

## 2024-25 School Description and Mission Statement

designed to intervene in the lives of students who are at risk of dropping out of school. Our students are credit deficient, between 16-18 years old, and need multiple supplementary supports and resources to gain the range of skills needed to succeed in life. Students volunteer from throughout the state to attend our school and enroll with the motivation to change the trajectory of their life by dedicating themselves to our five-month residential intervention program.

During the five-month program, students are assessed on their academic skills using the Test of Adult Basic Education (TABE) as both a pre and post-measure of their Reading and Math ability. While there is a lot of emphasis on credit recovery and making up previously failed courses for students, there is also substantial emphasis placed on goal setting and preparation for college and careers. Students will be both dual and concurrently enrolled with our local community college (Cuesta College) and exit the program having earned 4 college credits in addition to their high school credits.

Personal development is a core driver of all activities at the academy. In addition to academics, students learn discipline, leadership, and personal and social responsibility. Students learn to work as a team towards a common goal and are provided several opportunities for individual personal growth as well, through positive mentoring relationships, extracurricular activities, service to the community, physical fitness, and several counseling and career opportunities. In the five-month program, students receive an intense and well-rounded educational experience that is designed to be transformational. That is, our efforts are not merely credit recovery, we are interested in intervening and having the students apply the new habits, education, skills, and self-set goals to improve their life.

Our program doesn't stop after the five months. Although they are no longer enrolled and residing with the Academy, we provide support for a full twenty four months after completion. At the end of the residential program, some of our students will return to their district of residence to continue working towards their high school diploma while others will have completed their high school requirements with us, earning a high school diploma and embarking on their post-secondary life. Equipped with the tools they acquired at Grizzly, our graduates are prepared for a new life.

### SCHOOL DESCRIPTION

The Grizzly Challenge Charter School is fully WASC accredited and offers a rich variety of experiences and opportunities designed to develop our students' academic, social, and emotional skills. We believe in a holistic education: We teach students to think critically, make healthy choices, plan for a career, and pursue an action plan for their Post Grizzly lives.

Students who attend our school are initially at risk of dropping out of school due to a wide variety of reasons. Students volunteer to attend our school and enroll with the motivation to change the trajectory of their life by dedicating themselves to our five-month residential intervention program. At the end of the five-month program many of our students will return to their district of residence to continue their secondary education or will have completed their high school requirements with us and earn a high school diploma and embark on their post-secondary life. Equipped with the tools they acquired at Grizzly, our graduates are prepared for a new life.

### MISSION STATEMENT

To provide a safe, consistent, structured educational environment focusing on the success of the whole student. The school curriculum is goal-oriented, integrated, cooperative, flexible, and designed to meet the California State Standards as well as the diverse needs of the at-risk student population that it serves. Through partnerships with the California National Guard, the business community, and post-graduate education programs, Grizzly prepares students for the transition from high school to employment, higher education, and adult responsibilities.

### A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

## 2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Textbooks are one of several instructional materials used for teaching and learning in our school. Our experience has proved that for our students and teachers, textbooks are sometimes the best source for a lesson but not a majority of the time. All courses rely on a multitude of sources including journals, multimedia productions, video, podcasts, the Internet, educational magazines, articles and more to serve as curriculum sources.

Additionally, all students are issued a Chromebook upon enrolling in the school to use during their entire enrollment. Students have access to all teacher assigned learning materials via their Chromebook whereby courses take advantage of the most current information available online and assign activities which incorporate critical thinking, creativity, collaboration, and communication thereby increasing their preparation and readiness for college and careers.

Distance Learning which began in March of 2020 required a heavier reliance on technology to drive curriculum and instruction. The highly skilled teachers at Grizzly Challenge Charter School continue to use technology to enrich classroom instruction.

## School Facility Conditions and Planned Improvements

The facilities of Grizzly Challenge Charter School consist of a main office, ten portable classrooms, and five permanent classrooms. The five permanent classrooms are less than seven years old and in very good condition. The ten portable classrooms are approximately twenty years old and have been stuccoed to give an appearance of a “stick building”. The portable classrooms are generally in good condition as far as repairs go. Being on a National Guard installation, the National Guard is responsible for providing and maintaining facilities. Working collaboratively with the Logistics department, repairs are made in a reasonable amount of time. Nevertheless, the portable classrooms are not ideal learning environments and the Guard has a plan to expand the amount of permanent stick-built classrooms. Currently, there is not a date set for this expansion.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

#### College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

### Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

<b>Mathematics</b> (grades 3-8 and 11)	4	0	25	20	34	35

## 2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

## CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

## 2023-24 Career Technical Education Programs

CTE programs continue to be an area of emphasis for the school. All students attending the academy receive instruction and participate in activities that lead to the creation of an Action Plan to define Academic and Career Goals. All students enroll in a Career Planning class to identify values, lifestyles, aptitudes, and training and education needed for specific careers. Through this process, our students set educated and meaningful short and long-term goals for themselves.

Grizzly Challenge Charter School also provides students with opportunities to work in the public through its Internship Program with outside agencies. This gives students valuable workplace experience to help prepare them for future careers after leaving GCCS.

In the 2022-23 school year, our partnership with Cuesta College to earn CTE college credits was reestablished. This program is of paramount importance as it prepares students for careers, connects education to life goals, and has proved to be highly effective in reducing dropouts among at risk youth. We have identified funding for CTE facilities on our campus to incorporate the courses into the regular school day schedule. In the 2023-24 school year GCCS has continued to explore options available through collaborating with Cuesta Community College and through our own internship program.

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

## 2024-25 Opportunities for Parental Involvement

Although we are a residential program designed to remove students from their home environment and other outside influences, we need parental involvement for optimal success. Students who are enrolled in the school are often many miles from home during the five-month program yet we still have several face-to-face and long-distance opportunities for parental involvement. We have an orientation meeting prior to enrollment where the Principal meets with all parents and guardians, to not only

## 2024-25 Opportunities for Parental Involvement

explain the intervention program but to have a discussion and answer questions related to how we work with students. In the 2022-23 school year GCCS began using ParentSquare to communicate with students and parents. The Principal sends out notifications to keep families informed and educated about activities, events, and progress. Additionally, the Academy incorporates social media as a way to regularly interact with parents.

GCCS has relied more on video conferencing for everything including holding parent meetings. We see this as an opportunity to include our parents and allow them to participate and be more involved. Parents are included in School Site Council, Local Control and Accountability Plan meetings, and English Learner Advisory Committee meetings to solicit feedback and address any immediate or future concerns. In the absence of parents, however; the National Guard serves as guardians, in-loco parentis, during the students' enrollment. As such, the National Guard also works in collaboration with the school to develop academic and extracurricular activities for the benefit of all students.

## 2024-25 School Safety Plan

A Safety Committee reviews and updates the School Safety Plan annually. The plan integrates military and education policies and procedures, demonstrating the cohesiveness of the partnership between the two entities. The school facility is located at Camp San Luis Obispo, a secure military base with access limited to those carrying the proper identification. Cadre (military staff) is present at the school during the day assisting with supervising student behavior in the classroom and restrooms and ensuring safe passage to and from school and lunch. Cadre is available in case of emergency.

The school and the National Guard work together to create a safe school environment designed to build the academic skills these students need to continue their education and obtain their high school diploma. Students are required to attend school daily from 8:30 AM-3:50 PM. The facility is safe, well-lit, well supervised, and has a built-in loudspeaker system/intercom. Emergency fire drills are conducted at the school facility each cycle. Staff has participated in trainings on CPS reporting, cultural diversity, relationship building, gang awareness, and bullying prevention.

In response to the COVID-19 pandemic, the School Safety Plan was updated in March 2021 to include specific protocols pertaining to the pandemic. Having worked closely with the San Luis Obispo County Office of Education and the San Luis Obispo County Health Department concerning our residential setting and classroom environment prior to the start of the 2020-21 school year, we developed the 2020-21 Plan to Re-Open, placing a priority on health and safety while maintaining effective learning environments. As the 2020-21 school year progressed, and state and local guidelines changed, we developed the COVID-19 Prevention Program, a plan that updated our safety protocols accordingly. Pandemic Response Protocols were incorporated into the School Safety Plan in the 2022-23 school year. Opioid Prevention and Life-Saving Response Procedures were added to the 2023-24 Safety Plan.

Additionally, several counseling groups are offered to students to process and overcome personal challenges. There is also a

high ratio of counselors on staff available for individual work, as well as, focusing on increasing life coping skills. Students are surveyed routinely to determine perceptions of safety and belonging. Upstander committees have been developed to prevent and intervene in bullying behavior.

## Professional Development

Professional Development is an area of emphasis at the school. We operate in a continuing improvement process. The entire staff holds formal meetings twice per year to evaluate needs, decide areas of focus and plan activities for growth, and evaluate implementation of previous plans. We evaluate student learning, instructional practices and materials, and the entire scope of school day activities and extracurricular activities for effectiveness and make adjustments through our PLC (Professional Learning Communities) and administrative practices.

## Professional Development

There are a minimum of five work days allocated for all staff to participate in Professional Development whereby the focus is on improving student learning and development through curriculum and instruction, social and emotional learning, and career development opportunities. Our full day trainings emphasize school climate, teaching and learning, and personal student development to ensure our staff is highly trained and able to provide the services and resources that our population needs. Our teaching staff are highly active in professional conferences and receive quality development in the areas of Common Core Standards, English Language Development, 21st Century Skills, and Next Generation Science Standards.

This table displays the number of school days dedicated to staff development and continuous improvement.
